

# Envirotech Systems Ltd.

*"Engineering a Quieter Future"*

**INVESTOR PRESENTATION  
H2 '25 & FY 2025**

[www.EnvirotechLtd.com](http://www.EnvirotechLtd.com)

This presentation and accompanying materials (the "**Presentation**") have been prepared by **Envirotech Systems Limited** ("**the Company**") for informational purposes only. The Materials do not constitute an offer, solicitation, or recommendation to buy or sell any securities, nor do they form the basis of any contractual commitment. Any potential offering of the Company's securities will be conducted exclusively through a formal statutory offering document

## **No Representations or Warranties**

While the Company has prepared the Materials using information it deems reliable, no express or implied representations or warranties are made regarding the accuracy, completeness, or fairness of the content. Recipients should not rely solely on the Materials when making decisions, as they may not include all material information. The Company expressly disclaims any liability for errors, omissions, or interpretations derived from this presentation..

## **Forward-Looking Statements**

This Presentation includes forward-looking statements regarding the Company's future performance, profitability, and growth. These statements are subject to risks and uncertainties that could cause actual results to differ materially. Key factors include, but are not limited to Market competition (domestic and international), Economic conditions in India and globally, Ability to scale operations and retain talent, Project execution risks (cost/time overruns), Regulatory and policy changes, Interest rate and macroeconomic fluctuations. The Company does not commit to updating these statements should circumstances change, except as required by law.

## **Confidentiality & Use**

The Materials are confidential and intended solely for the recipient. Unauthorized distribution, reproduction, or reliance on this information is prohibited

# Company Overview

Envirotech Systems Limited is a leading acoustic products manufacturing organization specializing in noise measurement and control for industrial and commercial applications. Incorporated in 2007, we have expanded our capabilities to include innovative acoustical product design and manufacturing. With over 150 employees and a network of technical experts, we offer cost-effective solutions for various acoustical challenges in industrial, commercial, architectural, and environmental markets.

## Wide applications catering to diverse user industries

Construction

Public Transport  
Road & Rail  
Networks

Energy & Utilities

Music, Sports &  
Public Events

Airports &  
Heliports

Fracking, Mining,  
Oil & Gas

Demolition

Farming

Refits & Refurbishments

Hospitals  
& Schools

Restaurants &  
Bars

Indoor Conferences

# Products - Acoustic Enclosure

For the reduction of noise made by machines and mechanical units, as a leading supplier of industrial noise control we offer enclosures for all kind of noise sources:

- Gas turbines
- Steam turbines
- Compressors
- Diesel Generator
- Pumps
- Conveyor
- Fin Press Machine
- Air Compressor
- Forging Machine
- CNC Machine
- Scarfing Machine
- Other Noise Generating Industrial Machines

# Products - Noise Booth

The noise test booth is a quite room used for check the noise level. The main functionality of a noise control booth is to eliminate the shop floor noise. We offer online & offline noise testing booth to test each & every piece of product.

## Area of Application:

- Automotive sector
- Air conditioner manufacturing units
- Refrigeration units
- Fan, motor & Compressors manufacturing units
- Speaker and sound purity testing etc.

# Products - Engine Test Room Acoustic

To perform accurate and repeatable testing of the product, manufacturers use Engine test cell that provide controlled acoustical environment for product testing and development.

Generally Acoustic Treatment to engine test cell prevents the flow of excessive noise from engine test chamber to nearby areas in automobile industry.

For accurate designing of Engine Test Cell Acoustics module our acousticians & engineers review the acoustic profile of engines.

# Products - Anechoic Chamber

An anechoic chamber (an-echoic or non-echoing) is a room designed to stop reflections of sound waves. They are also insulated from exterior sources of noise.

## SEMI ANECHOIC CHAMBER

A room which create free field conditions but above a reflective plane. Above a certain frequency all sound waves that hit the walls or ceiling of the chamber will be absorbed.

This type of chamber normally used in vehicle testing with a rolling road so that the vehicle may be driven.

# Products - Noise Barriers

We offer a full design, delivery and installation service, which can also include all necessary structural steelwork. Barriers can be erected by our own, trained personnel or installed by other contractors, end users etc.

## Ares of Application:

- Mechanical Plants
- Roads, Metro & Railways
- Airport Boundaries
- Generators, Compressors and Chillers
- Construction
- Oil & Gas
- Refurbishments
- Maintenance Activities
- Outdoor & Indoor Events
- Other Areas like hospital, schools, airports, etc.

# Products - Acoustic Louvers & Doors

**Acoustic Louver** has a sound baffle designed to allow airflow through ventilation openings while reducing the radiation of noise. Typical application for our acoustic louvers used in conjunction with machine and enclosures, sound barrier walls and sound control rooms to allow silenced airflow.

Our Acoustic screens and enclosures solve a wide range of environmental noise pollution problems emanating from mechanical plant and systems including:

- Chillers
- Motors
- Compressors
- Pumps
- Roof top plant rooms

## **Acoustic Doors:**

We offer a range of Fire Retardant / Proof / Check Metal Doors Frames customized and accurate to customer specifications.

# Product Matrix

## INDUSTRIAL SEGMENT

- ANECHOIC CHAMBERS
  - ACOUSTIC ENCLOSURES
  - ENGINE TEST CELLS
  - ONLINE TEST CHAMBERS
  - NOISE BARRIERS
  - WALL PANELS
  - CEILING PANELS
  - ACOUSTIC SEALS
  - ACOUSTIC DOORS
  - FIRE DOORS
  - ACOUSTIC PARTITIONS
  - ACOUSTIC UNDERLAY
  - ACOUSTIC CONSULTANCY
- ENCLOSURES
  - NOISE BARRIERS
  - ANECHOIC CHAMBERS
  - ONLINE TEST CELLS
  - ENGINE TEST CELLS
  - ACOUSTIC LINING
  - FIRE RATED LETTER BOX
  - ACOUSTIC LOUVERS
  - SAND TRAP LOUVERS
  - FIRE GLASS
  - PORTABLE NOISE BARRIERS
  - ACOUSTIC SEPTUM

## COMMERCIAL SEGMENT

- CEILING PANELS
- WALL PANELS
- ACOUSTIC DOORS
- FIRE DOORS
- SLIDING FOLDING PARTITIONS
- VERTICLE FOLD PARTITONS
- MICRO PERFORATED PANELS
- CLOUDS AND BAFFLES
- PU FOAM PANELS
- ACOUSTICAL CONSULTANCY
- UNDERDECK INSULATION
- SOUND MASKING

# Management Commentary

**Mr. Manoj Kumar Gupta**  
**Managing Director**

## 1. Addressing the Growing Challenge of Noise Pollution

With rapid urbanization and industrialization, noise levels have increased significantly due to rising vehicular traffic, expanding road networks, metro connectivity, and construction activities. Recent studies highlight the adverse effects of noise pollution, including sleep disturbances, chronic health issues, and even fatalities in extreme cases.

While awareness and demand for noise control solutions are growing, the market lacks adequate retail-focused products. Recognizing this gap, our Company is developing innovative solutions to help consumers mitigate noise pollution in their homes.

## 2. Innovation Through Collaboration

We are proud to announce our partnership with **IIT Delhi** to develop advanced acoustic insulation products using recycled waste materials. This initiative holds significant potential, and we look forward to introducing ground breaking solutions to the market.

## 3. Capacity Expansion and Infrastructure Growth

To meet rising demand, we have expanded our production capabilities by acquiring a new **88,000 sq. ft. factory**, with plans to further extend it to **100,000 sq. ft.** in compliance with local regulations. The additional capacity will be **partially operational by June 2025** and **fully operational by December 2025**, ensuring enhanced production scalability.

**Mr. Manoj Kumar Gupta**  
**Managing Director**

## **4. Strengthening Operations for Future Growth**

This year marks a pivotal phase for our Company as we scale operations and enter the B2C segment. To address new challenges, we have:

- Implemented a customized ERP system to streamline operations, execution, accounting, and delivery.
- Onboarded and trained new talent to bolster our workforce.

## **5. Leadership Development**

To ensure long-term success, we are proactively building a strong second line of management. This transition is essential to handling larger, more complex orders and sustaining our growth trajectory.

## **6. Our Commitment to Stakeholders**

We remain dedicated to creating long-term value for all stakeholders and sincerely appreciate the continued trust and support from our partners, employees, and customers.

As we move forward, we are confident that these strategic initiatives will position us for sustained growth and innovation in the years ahead.

# Growth Drivers

- Introducing Soundproof Windows & Doors
- Collaboration with IIT-Delhi to develop new products
- Introducing B2C Vertical
- Targeting Defence Industry
- Enhancing Capacities & Robust Order book

# Growing awareness of Noise pollution

**The rapidly growing awareness of noise pollution is driving remarkable expansion in the market.**

# Introducing Soundproof Windows & Doors

## Envirotech Mute – Newly Launched Sound Proof Windows & Doors

**Envirotech Mute**, is newly launched premium **soundproof windows and doors**, engineered to deliver unmatched acoustic performance and peace of mind.

[www.EnvirotechMute.com](http://www.EnvirotechMute.com)

## Collaboration with IIT-Delhi to Develop Acoustic Solutions Utilizing Waste

Envirotech® Systems Ltd, signed a Memorandum of Understanding (MoU) with the prestigious Indian Institute of Technology, Delhi (IIT-Delhi). This partnership aims to utilize the waste (agricultural, plastic, etc.) to revolutionize the acoustic solutions domain. This initiative not only aims to reduce environmental waste but also promotes sustainable manufacturing practices.

### Key Highlights of the Collaboration:

- **Innovative Use of Waste Materials:** The newly developed solution will ensure durability, efficiency, and environmental sustainability.
- **Technology and Research:** IIT-Delhi will provide cutting-edge research and technical support, while Envirotech Systems Ltd will focus on manufacturing and market deployment.
- **Environmental Impact:** Expected to significantly reduce the environmental burden by repurposing the waste into valuable acoustic solutions, contributing to India's sustainability goals.

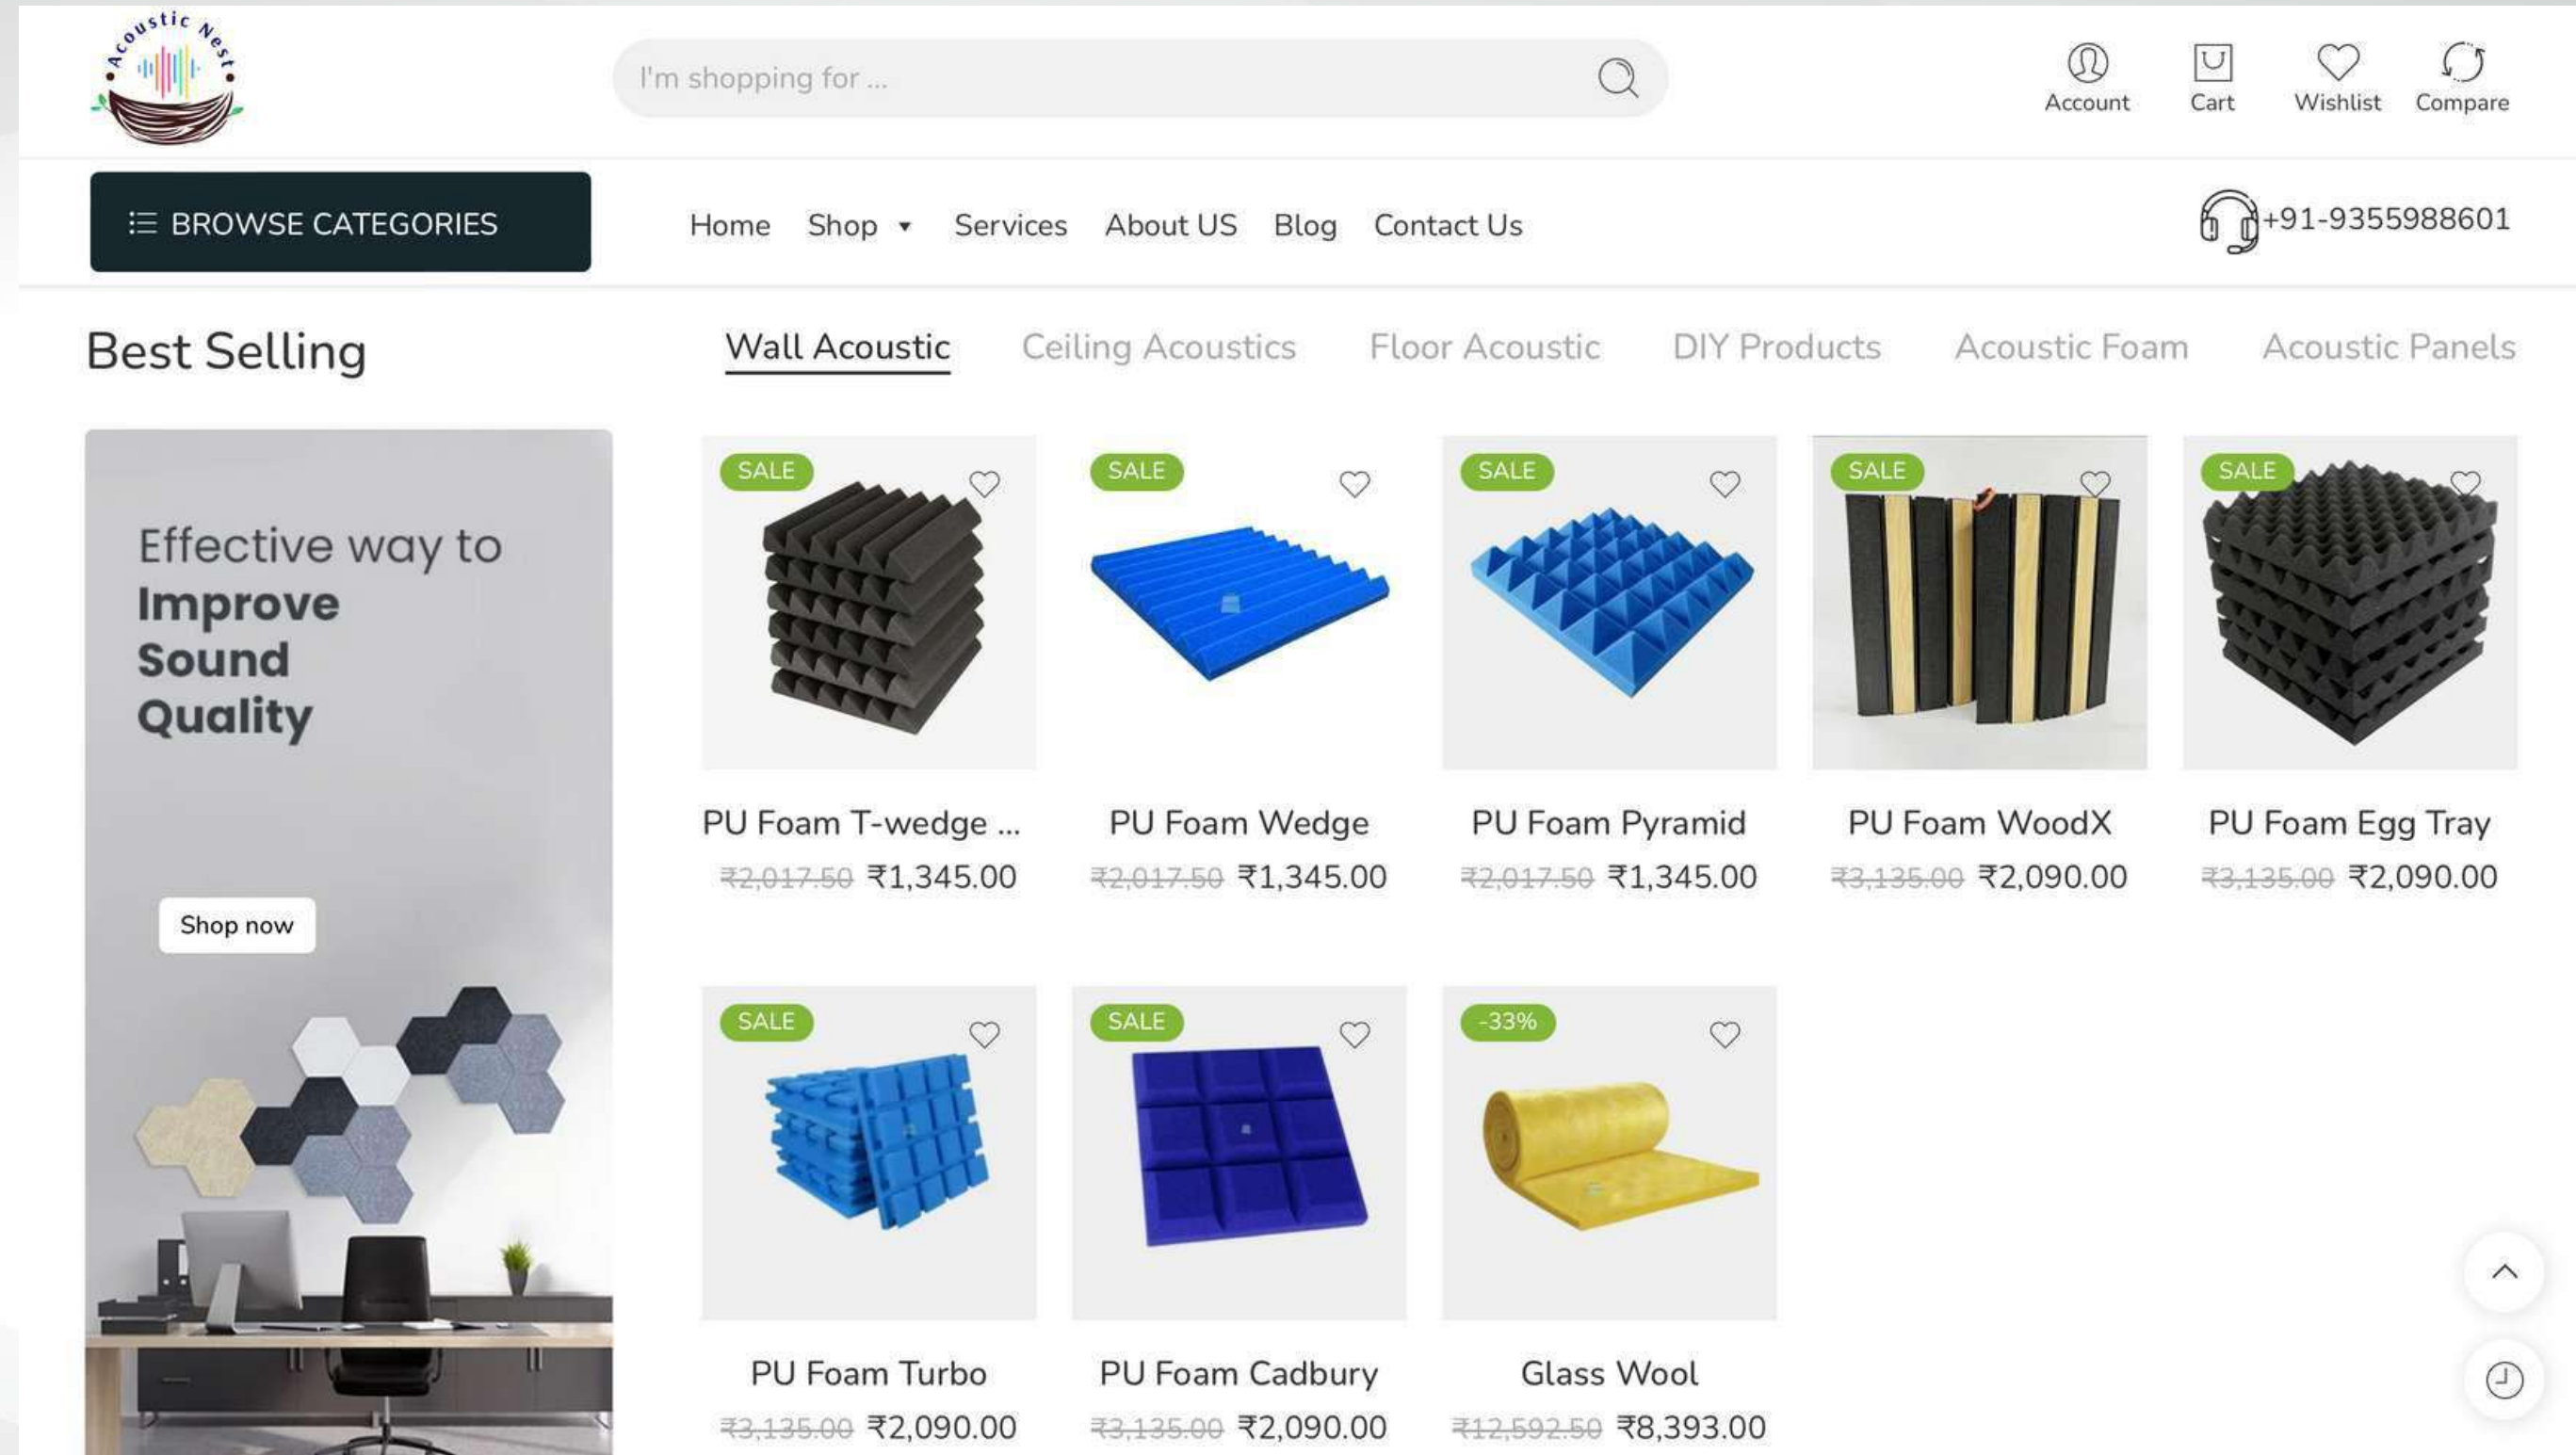

# Introducing B2C Vertical

www.Acousticsnest.com

- High demand for B2C products
- Clients across B2C industries like;
  - Hotels,
  - Residential Buildings,
  - Corporate Buildings,
  - Banquets,
  - Auditoriums,
  - And others. This
- segment contributes around 10% to revenues currently. We
- expect huge growth from this vertical.

# Catering to Defence Industry

- High demand from defence industry
- High margin segment
- This segment contributed around 30% to revenues in FY24.
- We expect huge growth from this vertical.
- Providing specialized acoustic solutions like anechoic chambers, soundproof rooms, acoustic enclosures, and RF absorbers to DRDO labs, Hindustan Aeronautics Limited, Bharat Electronics, and Defence Research Institutes across India.
- These projects span key defense and research locations, including Hyderabad, Bangalore, Delhi, and Vishakhapatnam.

## Our Clients

# Enhancing Capacities

## Unit 1 & 2

**Capacity:**  
**21,520 Sq. Ft.**

**Utilisation:**  
~90-100%

Located in  
Kasna, Greater  
Noida

## Unit 3

**New Capacity  
added:**  
**100,000Sq. Ft.**

**Partially  
Operational by June  
2025**

Located in  
Kasna, Greater  
Noida

# Robust Orderbook

Order book as of  
April 2025 Rs 20 crores

Some of our Prestigious orders in hand :

Name of Party	Amount (Rs)
Gainwell	3,21,75,000
